TABLE OF CONTENTS

1- Introduction _____	3
2- Installing the template with the Cloner Installer package _____	4
3- Installing the template without the Cloner Installer package _____	5
4- Template and Extensions Parameters _____	6
5- More Information _____	13

1- Introductions

These instructions are for installing the template and its associated extensions, with or without the Cloner Installer package.

The Cloner Installer package is very helpful and enables you to setup the template exactly as it is on the demo. If you already have a running Joomla! website, you should not use the Cloner Installer package.

The setup instructions for installing with and without the Cloner Installer package are shown below.

The IT Union All in One package (IT_AutoMag-(unzip-first)-xxxxxxxxxx.zip) contains the following files. Note that the files of this package should be extracted first on your computer.

1. IT_Union_Template_V1.0.0.zip
2. mod_IceSlideShow.zip
3. mod_IceAccordion.zip
4. mod_IceCarousel.zip
5. mod_IceTwitter.zip
6. mod_IceMenu.zip
7. mod_PixSearch.zip
8. mod_jcomments_j15_v2.5.4.zip
9. com_jcomments_v2.1.0.0.zip
10. plg_J2Top.zip
11. Cloner_Installer_Joomla-1.5.X.zip
12. Installation Guide

From the list above you will note that for this Joomla template there are available the template, 8 extensions, Cloner Installer package which can make your website exactly as our demo and the Installation Guide which in fact is this document that you are viewing.

All the files above from number 1 to 10 should be installed through the default Joomla! Installation process in Joomla! Administrator.

2- Installing the template with the Cloner Installer package

If you plan to use the “Cloner Installer” package all you have to do is to upload the content of this zipped package on your desired directory and begin the default installation process as described by Joomla!

Note that **you must install the “sample data” on the 6th step of the installation process** so that your database should be updated with our template data. Also if you make use of the Cloner Installer package, all files from 1-9, that are found inside the All in One package, should not be used as they are by default on the Cloner Installer package, so you don't have to install anything from the Joomla! Installation page in Joomla! Administrator, after you have completed the installation process.

The Cloner Installer package will save you a lot of times as you don't have to set parameters for the extensions and for our template plus you have the content set up by default. So making use of this package is extremely recommend for websites that begin from scratch.

Normally you should login with the information that you have provided on the 6th step of the installation process, however if you are unable to do so please use:

Username: admin

Password: icetheme

You may change the admin password from the Joomla! Administrator – User Manager - Admin

For more information how to install Joomla please follow the [Joomla QuickStart](#) page

3- Installing the template **without the Cloner Installer** package

Note:

The instructions below assume that you have first successfully installed Joomla on your server. For more information on how to install Joomla please follow the [Joomla QuickStart](#) page

- 1) Extract the content of the IT Union All in One package on your computer.
- 2) Install IT_Union_Template_V1.x.x.zip from Joomla Administrator – Install/Uninstall
- 3) Install in the same way the following extensions which are on the package.
 - a. mod_IceSlideShow.zip
 - b. mod_IceMenu.zip
 - c. mod_IceAccordion.zip
 - d. mod_IceCarousel.zip
 - e. mod_IceTwitter.zip
 - f. mod_PixSearch.zip
 - g. mod_jcomments_j15_v2.5.4.zip
 - h. com_jcomments_v2.1.0.0.zip
 - i. plg_J2Top.zip

After you have successfully installed all the above files on your Joomla! Website you need to edit for each extension and for the template their parameters. You may view the default parameters from the guide below, but you may change them with your desired ones.

1- IT Union template parameters

Parameters

The parameter file 'templates\it_union\params.ini' is **writable!**

Template Style	Style 1 ▾
Left Column Width (px)	182
Right Column Width (px)	212
Show Date	<input type="radio"/> No <input checked="" type="radio"/> Yes
Font Size	Medium ▾
Font Switcher	<input type="radio"/> No <input checked="" type="radio"/> Yes
RSS Feeds	<input type="radio"/> No <input checked="" type="radio"/> Yes
Login Box Transition	Cubic.easeOut ▾
Login Box Duration (ms)	600
Equal Columns	<input type="radio"/> No <input checked="" type="radio"/> Yes
Gzip Compression	<input type="radio"/> No <input checked="" type="radio"/> Yes
IceTheme Logo	<input type="radio"/> No <input checked="" type="radio"/> Yes

2- IceMenu Module

Parameters

▼ **Module Parameters**

Menu Name	mainmenu ▾
Delay	500
Duration	800
Transition	Cubic.easeOut ▾

► **Advanced Parameters**

3- IceAccordion Module

Parameters

▼ Module Parameters

Link Color	<input type="text" value="ccc"/>
Link Color (Active Item)	<input type="text" value="fff"/>
<hr/>	
Category Items	<input type="text" value="IceTheme/IceAccordion"/> ▼
Article Ordering	<input type="text" value="Article Order"/> ▼
Number of Items	<input type="text" value="5"/>
<hr/>	
Module Class Suffix	<input type="text" value="col-module-style1"/>

► Advanced Parameters

4- IceSlideShow Module

Parameters

▼ Module Parameters	
Category Items	IceTheme/IceSlide Show ▼
Article Ordering	Article Order ▼
Number of Items	5
IceSlideShow Width	720
IceSlideShow Height	250
AutoPlay	<input checked="" type="radio"/> Yes <input type="radio"/> No
AutoPlay Delay (ms)	5000
Preloader	<input checked="" type="radio"/> Yes <input type="radio"/> No
Preloader Image.	<input checked="" type="radio"/> Yes <input type="radio"/> No
Preloader Error	<input checked="" type="radio"/> Yes <input type="radio"/> No
Transition Effect	Fade ▼
Transition Duration (ms)	500
InfoPane	<input checked="" type="radio"/> Yes <input type="radio"/> No
InfoPane Opacity (0-1)	0.6
InfoPane Slide	<input type="radio"/> Yes <input checked="" type="radio"/> No
Carousel	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Thumbnail Width (px)	130
Carousel Thumbnail Height (px)	45
Carousel Thumbnail Space (px)	10
Carousel Closed Height (px)	20
Carousel Closed Opacity (0-1)	0.5
Carousel Opened Opacity (0-1)	0.9
Carousel Text	Show Pictures
Carousel thumbnail description	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Close Option	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Scroll	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Preloader	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carosuel Preloader Text	Loading...
Enable Links	<input type="radio"/> Yes <input checked="" type="radio"/> No
Module Class Suffix
