

## TerranTribune Demo Content

The demo for TerranTribune utilises a large stock of custom code and styling to make the most of every content item and show what TerranTribune can do. This basically means that the HTML used in the custom modules and content have customisations which employ the characteristics of the template to make the "perfect" content.

This demo content section will take you through some of the content areas and general techniques used to further your understanding and help you realise the true potential of TerranTribune. If you would like to quickly deploy a replica of our TerranTribune demo for a new Joomla site, be sure to check out our RocketLauncher package.

### Adding Static Content to the Front-Page

If you wish to place a Static Content Item on the frontpage, you will have to do the following:-

1. Create your Static Content Item
2. Go to Admin > menu > mainmenu
3. Click the New button
4. Select Link - Static Content
5. Fill out the menu parameters
6. Save

### Read More Buttons

Read more buttons are automatically generated for content items that use the intro and main text option. However, you can easily insert them manually as witnessed on this demo. Use the following code:

```
<a href="your_link" class="readon">Read More...</a>
```
